

# GROUP ACHIEVEMENT AWARD

---

## 2019 - Alberta Conservation Association

**Our Mission:** ACA conserves, protects and enhances fish and wildlife populations and their habitats for Albertans to enjoy, value, and use.

**About:** To conserve, protect and enhance have been part of our DNA for over 20 years. Our research work in conservation varies widely and can have staff brave -40° C weather to track wolverines or survey redds in spawning habitat of world class brown trout. We are “boots on the ground” for conservation projects that benefit Alberta’s wildlife, fish and habitat. In addition, Alberta Conservation Association provides educational outreach and awareness through events, publications and social media, encouraging Albertans to use, enjoy and value our rich outdoor heritage. Key to our success has been partnerships; with other conservation organizations, with industry and with our many stakeholders. Working together, we can all achieve more for conservation.
