

TWS FELLOWS PROGRAM

2016 – Karla Guyn

Position: CEO, Ducks Unlimited Canada

Accomplishments: Dr. Guyn has had a significant impact on waterfowl and wetland conservation across North America through her extensive and diverse experience working with Ducks Unlimited Canada, culminating in her current position as CEO of the organization. As a research scientist, her work has included a focus on biology of Northern Pintails and other duck species. She has been deeply involved in integrating scientific knowledge into policy and conservation planning at local to international scales, participating in influential collaborations such as the Prairie Habitat Joint Venture and The North American Waterfowl Management Plan Committee.
